Auto File Manager - MP3 Crack

Auto File Manager - MP3 is a lightweight and user-friendly piece of software whose main purpose resides in offering you a simple method of sorting and organizing your MP3 files, enabling you to transfer them from one location to another with minimal effort. Simple and functional interface The program features a fairly basic appearance, its main window displaying no particularly attractive characteristics, yet its straightforwardness makes it approachable for anyone, no matter the experience. Auto File Manager - MP3 displays in its main window the items that will be subjected to the copying or moving operation, along with some of their basic properties, such as full path, file size or the last modification date. Transfer your MP3s in batch from one folder to another To get started, you simply need to input the source and target location from your system, by clicking on the assigned buttons on the lower part of the screen. Drag and drop operations are not supported by the application. Once you have loaded a directory into Auto File Manager - MP3, you can no longer remove items from the list, your only option being to close it and start all over again. Double-clicking on an entry causes it to open in your default media player. From the 'Control' menu, you can select the preferred option, either 'Copy Files' or 'Move / Cut Files', the former simply creating duplicates of the original MP3s, while the latter transfers them entirely to the new location. Finally, you can press 'Start ReArrange' and when the operation is complete, a popup dialog will inform you of its success. A handy MP3 organizer To sum it up, Auto File Manager - MP3 is a useful and efficient utility that you can resort to whenever you need to move music files in bulk from one folder to another and do not wish to spend too much time selecting individual songs to transfer. General The program could be quite useful in the process of transferring your MP3 collection to any sort of portable device, no matter if you have a smartphone or a notebook. It features a simple and straightforward interface and is intended to save you a lot of time, given that you are going to be able to perform the same task faster and more efficiently.
